Membrane elements as accessories for reverse osmosis units

We offer you high-quality and durable PWG membrane elements to match our systems.

BENEFITS

- Every membrane brand is tested by us in our in-house technical centre before being used in our plants to provide you with the best quality
- Available from stock

APPLICATIONS

- For RO units
- Tested quality for a long service life

PWG membrane elements

Membrane elements as accessories for reverse osmosis units

CONDITIONS OF USE

Permeate flow rate can vary +/- 20 %

TECHNICAL DATA OF SERIES

Product name	Description	Permeate flow rate	Desalination rate	Item number
		m³/day	% nominally	
2540 ND	Low-pressure element	3.3	99.1	395 142
4040 BW	Brackish water element	8.7	99.5	395 144
4021 HF	Low-pressure element	5.5	99.0	395 229
4040 ND	Low-pressure element	9.8	99.3	395 146
4040 HR	Low-pressure element	7.2	99.6	395 147
4040 ES	Low-pressure element	9.8	99.2	395 149
8040 ND	Low-pressure element	45.4	99.3	395 151
8040 HR	Low-pressure element	34.1	99.6	395 152
8040 ES	Low-pressure element	45.4	99.2	395 154
